PROPERTY OWNERS' ASSOCIATION USE OF EASEMENTS

- The Property Owners' Association Board would like to remind all lakefront property owners that the Association has an easement along the shoreline of Woodridge Lake, which extends ten (10) feet back from the shoreline onto each lot. This easement was created in the original 1969 Declaration of Restrictions to permit Property Owners' Association to perform lake and shoreline maintenance and control.

- The Property Owners' Association also owns all rights in and to the lake. For example, any dock located in the lake is permitted only by license from the P.O.A.
- As you know, the Association performs substantial maintenance chores along the shoreline each fall. Although by its terms the easement does not prohibit structures from being located in the easement, any structure so located is subject to removal if it presents an obstacle to proper lake or shoreline maintenance. Similarly, docks or portions thereof, located in the lake, which hinder shoreline maintenance, are also subject to removal. Therefore, due consideration should be given to the rights of the Property Owners' Association before making improvements in the lake or in the ten (10) foot strip to avoid potential needless damage and expense for the removal of such improvements.

USE OF AMENITIES

- The lake, parks, recreational facilities and other areas within the development belonging to the Association are designated for use by members of the Woodridge Lake Property Owners' Association. They shall remain private and restricted to the use by members of said Association, and their guests, subject to the use by members of said Association, and their guests, subject to such rules and regulations and conditions as the Association may from time to time establish.
- Some of the facilities, such as the boating marina, pool area, clubhouse, etc. may require a fee to be established by those committees responsible for their maintenance.
- Each property owner should assume the responsibility for the actions of his guests and renters. The various committees and Board of Directors have established guidelines for the use of common facilities by guests and renters. A copy of the resolution covering the guidelines may be secured from the Business Office at the Clubhouse.

SHORELINES, DOCKS AND BUOYS

- In an effort to minimize natural shoreline changes, waterfront property owners must carefully consider the possible ecological damage that could be caused by construction of retaining walls, cribbing, dock footings, beaches within fifty (50) feet of the shoreline.
- The Environmental Control Committee must approve all docks, footings, cribbing, ramps, seawalls, buoys, beaches, or similar installations before work is started.

DISCHARGE INTO LAKE

- Except for natural rainwater and natural groundwater, no other sources of water (except nominal watering of trees and shrubs) or other liquids, solids, cleaning solutions, fuels, lubricants, poisons, sprays or other compounds not readily biodegradable shall be permitted to enter the lake, its drainage system or its tributaries.
- Use of fertilizer or nutrients is prohibited.
- The use of insecticides and herbicides is dangerous to the ecology of the lake, which feeds into a municipal water supply. The use of such chemicals is strongly discouraged. (Members must receive approval from the Board of Directors before using any chemicals.)
